

Solutions for a Better Tomorrow

**Endless Hot Water - At the Temperature
You Need It, When You Need It!**

Got steam and need reliable domestic hot water? If the answer is yes, then the RediHeat Instantaneous Water Heater is the right choice for you.

- Feed forward design that mitigates concerns of legionella from storage type units.
- No electrical or pneumatic connections are required.
- The most compact water heater available for operations in 30,60,90 and 120 GPM.
- Saves up to 40% in energy costs when compared to other domestic hot water sources.
